

UNIVERSITY OF LIVERPOOL - PREGNANCY AND PARTURITION - MARCH 2012

TIME	SUBJECT	LECTURER	LOCATION
Monday 19 Mar 2012			
11 00 am	Neospora, seroprevalence & diagnosis	Diana Williams	Leahurst House
1 30 pm	Infectious disease status in relation to reproduction	George Caldwell	“
3 30 pm	What is the impact of abortion on fertility? To vaccinate or not?	Discussion with GC	“
Tuesday 20 Mar 2012			
9 15 am	Retain fetal membranes	Richard Murray	Student lab
11 00 am	Sampling techniques <i>tbc</i>	<i>tbc</i>	“
12 00 noon	Bacteriology of abortion	Zerai Woldehiwet	“
1 00 pm	Any questions?	Discussion with ZW	“
2 00 pm	Abortion diagnosis –problem solving	Workshop	“
3 30 pm	Fetal responses to infection - application?	Richard Murray	Leahurst House
4 30 pm	What is the best approach to infectious causes of abortion?	Discussion with RDM	
Wednesday 21 Mar 12			
9 15 am	Hormonal control of parturition, endogenous and exogenous	Marcel Taverne	Leahurst House
10 00 am	Indications for caesarean operations, including feto/maternal disproportion (beef and dairy animals only)	Aart de Kruif	“
11 30 am	Discussion/Questions	Participants, Taverne, Kruif	“
1 30 pm	Fetal physiology in late pregnancy and parturition	Marcel Taverne	“
3 00 pm	Other periparturient surgery (prolapse/lacerations/episiotomy)	Aart de Kruif	“
4 00 pm	Participant practitioner feedback	All	“
Thursday 22 Mar 2012			
9 15 am	Immunological aspects of neonatal survival – theory	Stuart Carter <i>tbc</i>	Leahurst House
10 15 am	Question time	with Stuart Carter	“
11 00 am	Colostrum	Dai Grove-White	
12 00 noon	Any questions?	Discussion	“
Friday 23 Mar 2012			
9 15 am	Assessment of neonates	Dai Grove-White	Leahurst House
10 30 am	IV fluid therapy. Risks of using colostrum re-Johnes disease	Dai Grove-White	“
11 15 am	Oral fluid therapy for calves – physiology and rationale behind ORT	Harriet Brooks	“
12 15 pm	Discussion of fluid therapy	Participants, Brooks, DGW	
2 00 pm	What do you do with weakly calves?	Participants, DGW, Brooks,	“
