

At the University of Veterinary Medicine Hannover, a vacancy as

## **Research Associate**

is to be filled in full time (100%, 39,8 h/w) at the Clinic for Cattle as of November 1, 2021. The employment is initially limited to two years.

### **Area of responsibility**

- Applicant should participate effectively and innovatively in teaching, research and services in the fields of biotechnology, spermatology and clinical andrology of cattle.
- Cooperation with other institutions of the University of Veterinary Medicine Hannover and with external research institutes as well as with practice.

### **Requirements**

- Completed studies in veterinary medicine, veterinary license, doctorate.
- Interest and, if possible, experience in biotechnology, spermatology and clinical andrology in cattle.

German language and good communication skills are desirable.

The collective agreement for the civil service of the federal states (TV-L) applies to the employment relationship; payment is made according to the salary group 14 TV-L. Severely disabled applicants will be given priority if they are equally qualified. With equal qualifications, applications from women will be given preference.

For further information, please contact the Secretariat of the Clinic for Cattle, Tel. +49 511 856-7243.

Meaningful applications should be submitted to the University of Veterinary Medicine Hannover, Clinic for Cattle, Bischofsholer Damm 15, 30173 Hannover or to: [rikli@tiho-hannover.de](mailto:rikli@tiho-hannover.de) by September 19, 2021 at the latest.
